Citizen Evaluations of Government Programs

Researchers in the School of Public Affairs at American University are conducting a study of how the public perceives and responds to government initiatives.

If you decide to participate in this study, you will be asked to respond to several survey questions, including some questions about a fictional government initiative. **All information provided about public agencies or studies of agencies in this survey is fictional.**

Completing this survey should take about **5-10 minutes**. If you finish the survey with valid responses, you will receive **\$0.50**. **Your responses are confidential.** Results from this study will be shared with others, but your identity will not be associated with your responses. Once data collection is complete, I will employ standard measures to ensure confidentiality. Specifically, I will destroy any information (MTurk IDs, IP addresses) linking individuals to responses. After deleting these individual identifiers, the anonymous survey response data will be shared with others. ***Your involvement in the study is voluntary, and you may choose not to participate or to stop at any time.***

The results of this study may help inform experts considering how citizen opinions can be interpreted and used when evaluating government organizations and initiatives. We do not anticipate that your participation will result in any risks or discomforts, but you may skip any questions you do not want to answer.

If you have any questions about this research project, please feel free to contact me at 202-885-6362 or favero@american.edu. Questions or concerns about your rights as a research participant should be directed to the Social Behavioral IRB at American University at 202-885-3447 or by email at irb@american.edu.

By completing the following survey, you are agreeing to participate in this research project. Participants must be 18 years of age or older. If you wish, please feel free to print and keep a copy of this page for your records.

Thank you for participating in this study.

Dr. Nathan Favero Principal Investigator Assistant Professor, Department of Public Administration & Policy School of Public Affairs, American University 202-885-6362 favero@american.edu

sex

Are you male or female?

- Male (1)
 - Female (2)
-

age What is your age?

- 18-29 years old (1)
 - 30-49 years old (2)
 - 50-64 years old (3)
 - 65 years and over (4)
-

party

In politics today, do you consider yourself a:

- Republican (1)
- Democrat (2)
- Independent (3)
- Something else (4)

Skip To: poleff17 If In politics today, do you consider yourself a: = Republican
Skip To: poleff17 If In politics today, do you consider yourself a: = Democrat

partyIn

As of today do you lean more to...

- Republican (1)
 - Democrat (2)
-

po1eff17 How much do you agree or disagree with the following statement?

Most government administrators can be trusted to do what is best for the country

- Strongly agree (1)
 - Agree (2)
 - Neither agree nor disagree (3)
 - Disagree (4)
 - Strongly disagree (5)
-

Q59

End of Block: Demographics 1

Start of Block: Vignette

All of the information I provide to you in this survey is hypothetical. Garrison County does not exist, and the national study of DMV offices that I reference is also fictional.

Please carefully read the following account of a hypothetical initiative in a local government office and then respond to the questions that follow:

Display This Question:
If Treatment = 1

The Garrison County DMV Garrison County's local Department of Motor Vehicles (DMV) office serves over 400 customers on a typical operating day. The local office manager has been studying the issue of customer wait times and thinking about ways to better serve local customers. An initial review revealed the following: In 2016, the average wait time at the Garrison County DMV was 35 minutes. A recent nationwide study found that the average wait time at mid-sized DMV offices across the United States is typically around 35 minutes.

Display This Question:
If Treatment = 2

The Garrison County DMV Garrison County's local Department of Motor Vehicles (DMV) office serves over 400 customers on a typical operating day. The local office manager has been studying the issue of customer wait times and thinking about ways to better serve local customers. An initial review revealed the following: In 2016, the average wait time at the Garrison County DMV was 35 minutes. A recent nationwide study found that the average wait time at mid-sized DMV offices across the United States is typically around 55 minutes.

Display This Question:
If Treatment = 3

The Garrison County DMV Garrison County's local Department of Motor Vehicles (DMV) office serves over 400 customers on a typical operating day. The local office manager has been studying the issue of customer wait times and thinking about ways to better serve local customers. An initial review revealed the following: In 2016, the average wait time at the Garrison County DMV was 55 minutes. A recent nationwide study found that the average wait time at mid-sized DMV offices across the United States is typically around 35 minutes.

Display This Question:

If Treatment = 4

The Garrison County DMV Garrison County's local Department of Motor Vehicles (DMV) office serves over 400 customers on a typical operating day. The local office manager has been studying the issue of customer wait times and thinking about ways to better serve local customers. An initial review revealed the following: In 2016, the average wait time at the Garrison County DMV was 55 minutes. A recent nationwide study found that the average wait time at mid-sized DMV offices across the United States is typically around 55 minutes.

Q45 At the beginning of 2017, the Garrison County DMV started giving customers numbered service tickets upon arrival at the office. The manager hopes this process will lead to shorter wait times.

Based on the limited information provided about the Garrison County DMV, please offer your best assessment for each of the following questions:

pos_exp If you had to predict, how long do you expect the average wait time will be at the Garrison County DMV for the year 2017?

- 0-10 min (1)
- 10-20 min (2)
- 20-30 min (3)
- 30-40 min (4)
- 40-50 min (5)
- 50-60 min (6)
- 60-70 min (7)
- more than 70 min (8)

norm_exp Thinking about what is reasonable for a Garrison resident to expect from their local DMV, what do you think the average wait time *should* be?

- 0-10 min is acceptable, more than 10 min is unacceptable (1)
- 0-20 min is acceptable, more than 20 min is unacceptable (2)
- 0-30 min is acceptable, more than 30 min is unacceptable (3)
- 0-40 min is acceptable, more than 40 min is unacceptable (4)
- 0-50 min is acceptable, more than 50 min is unacceptable (5)
- 0-60 min is acceptable, more than 60 min is unacceptable (6)
- 0-70 min is acceptable, more than 70 min is unacceptable (7)
- more than 70 min is acceptable (8)

End of Block: Vignette

Start of Block: Post-vignette

Data for the first 10 months of 2017 shows that the average wait time for the Garrison County DMV has been 45 minutes so far. **Based on all the information that has been provided, please consider how well you think the Garrison County DMV is serving its residents:**

satisf Using a 10-point scale on which “0” means “very dissatisfied” and “10” means “very satisfied,” how satisfied are you with the services provided by the Garrison county DMV? very dissatisfied very satisfied

- 0 (1)
- 1 (2)
- 2 (3)
- 3 (4)
- 4 (5)
- 5 (6)
- 6 (7)
- 7 (8)
- 8 (9)
- 9 (10)
- 10 (11)

Page Break

The following questions will be used to gauge how well study participants remember information from the descriptions above. Please answer as best as you can based on what you remember.

JS

check1 How long was the average wait time at the Garrison County DMV in 2016?

JS

check2 How long was the average wait time at mid-sized DMV offices across the United States according to the recent nationwide study?

check3 Was the Garrison County DMV's average wait time in the first 10 months of 2017 shorter or longer than their wait time last year?

- Shorter wait time than 2016 (1)
- Longer wait time than 2016 (2)

check4 Was the Garrison County DMV's average wait time in the first 10 months of 2017 shorter or longer than the average time cited in the nationwide study?

- Shorter wait time than average in study (1)
- Longer wait time than average in study (2)

End of Block: Post-vignette

Start of Block: Demographics 2

hisp

Are you of Hispanic, Latino, or Spanish origin, such as Mexican, Puerto Rican or Cuban?

Yes (1)

No (2)

race

Which of the following describes your race? [You can select as many as apply]

White (1)

Black or African American (2)

Native American/American Indian/Alaska Native (3)

Asian or Asian American (4)

Native Hawaiian or other Pacific Islander (5)

Some other race, specify: (6)

income

Last year, that is in 2016, what was your total family income from all sources, before taxes?

- Less than \$30,000 (1)
- \$30,000 to less than \$60,000 (2)
- \$60,000 to less than \$90,000 (3)
- \$90,000 or more (4)

Edit Project

Specify the properties that are common for all of the HITs created using this project.

1 Enter Properties

2 Design Layout

3 [Preview and Finish](#)

Project Name: This name is not displayed to Workers.

Describe your HIT to Workers

Title
Describe the task to Workers. Be as specific as possible, e.g. "answer a survey about movies", instead of "short survey", so Workers know what to expect.

Description
Give more detail about this task. This gives Workers a bit more information before they decide to view your HIT.

Keywords
Provide keywords that will help Workers search for your HITs.

Setting up your HIT

Reward per assignment
This is how much a Worker will be paid for completing an assignment. Consider how long it will take a Worker to complete each assignment.

Number of assignments per HIT
How many unique Workers do you want to work on each HIT?

Time allotted per assignment Minutes
Maximum time a Worker has to work on a single task. Be generous so that Workers are not rushed.

HIT expires in Days
Maximum time your HIT will be available to Workers on Mechanical Turk.

Auto-approve and pay Workers in Days
This is the amount of time you have to reject a Worker's assignment after they submit the assignment.

Worker requirements

Tip: Use Premium Qualifications to specify Workers that are eligible to work on your HITs based on their Education, Marital Status, and more. More details [here](#).

Require that Workers be Masters to do your HITs ([Who are Mechanical Turk Masters?](#))

Yes No

Specify any additional qualifications Workers must meet to work on your HITs:

- HIT Approval Rate (%) for all Requesters' HITs greater than 90 Remove
- Location is UNITED STATES (US) Remove
- Number of HITs Approved greater than 50 Remove

(+) Add another criterion(up to 2 more)

(Premium Qualifications incur additional fees, see [Pricing Details](#) to learn more)

Project contains adult content ([See details](#))

This project may contain potentially explicit or offensive content, for example, nudity.

HIT Visibility ([What is HIT visibility?](#))

- Public - All Workers can see and preview my HITs
- Private - All Workers can see my HITs, but only Workers that meet all Qualification requirements can preview my HITs
- Hidden - Only Workers that meet my HIT Qualification requirements can see and preview my HITs

Input Data Format

The input data must be a CSV file (comma separated values). CSV is a common format for representing tabular data. Columns are separated by commas and rows are separated by newlines/carriage returns. For example:

```
Name, Age<newline>
John Smith, 40<newline>
Jane Doe, 32<newline>
```

Most spreadsheet applications allow you to save your spreadsheet in the CSV format. For example in Microsoft Excel:

1. Select **File** -> **Save as**
2. Select **Save as type** -> **CSV (Comma delimited)(*.csv)**
3. Select **Save**
4. When you're prompted with "... may contain features that are not compatible with CSV (Comma delimited). Do you want to keep the workbook in this format?", click **Yes**

Note: If you're using a Mac, save the CSV file for Windows to ensure compatibility

Note: Your CSV file should be UTF-8 encoded and cannot contain characters with encodings larger than 3 bytes.

For more information about the expected format of the input file, see our [Getting Started Guide](#) or [User Guide](#)
